

WALL PANELS

1 METAL ELEMENTS Custom metal fabricator Moz Designs is expanding its Blendz Patina collection of recycled aluminum surfacing with new options that evoke wood, water, copper and earth. The material can be specified in a range of sizes. mozdesigns.com

2 EYE-POPPING ILLUSION Swedish studio Front collaborated with wood veneer manufacturer Alpi to introduce Drapery Wood and Grid Wood. The latter uses four different hues in a traditional inlay pattern; the variety of finishes creates the illusion of a 3-D surface. alpiwood.com

3 LAYERED TRANSPARENCY The ViviStrata collection of etched glass from Forms+Surfaces includes Layers, which frames multiple patterns between two sheets. It comes with an invisible coating that repels dirt. forms-surfaces.com

4 HIDDEN SEAMS The mosaic-like Chip pattern is new to ModularArts' InterlockingRock collection of three dimensional gypsum panels. Fortified filler allows for seamless installation on walls of any size. modulararts.com
